# LIFE CHANGING OPPORTUNITIES AND OUTCOMES THROUGH THERAPY

## GENERAL THERAPY SERVICES

---

As a multidisciplinary team our specialists provide psychology, speech and occupational therapy for all stages of a person's life.

Occupational therapy enables participation in activities of everyday life, speech therapy is the treatment for communication and / or swallowing difficulties and psychology supports you through a difficult time of life.

## AUTISM ASSESSMENTS AND PROGRAMS

Living life with Autism provides a unique set of opportunities. With experienced therapists, individual programs and regular therapy those opportunities can be both positive and life changing.

Autism Assessments are a comprehensive assessment process to identify difficulties and determine interventions, strategies and support as well as confirm diagnosis.

## DISABILITY SUPPORT AND PROGRAMS

---

Our team is committed to supporting children and adults living with a disability.

We use evidence based practices while partnering with you to achieve life changing outcomes.
